Post-Closure Employees (1).xlsx

Jennifer's grandmother died so today will be her last day at the hospital and she plans to run out PTO.

Lisa and Lynette will be part of a rotation so that at least 3 senior leaders will take PTO each day but leave enough to handle issues that arise.

Total employees on the roster is over 800 but the total who are actually working productive hours is approximately 200. The rest are just collecting PTO or are per diem or otherwise not eligible for PTO.

Dan is going to reduce that 200 figure today to 70 or less. In the coming days he will reduce it further. His team is working on an updated version of the attached file to scale back the staff.

Mark

**Subject:** Staffing

We have listed staffing in two levels. First what we believe we must have in order to get charts done, billing, collecting etc. Other things that are important to keep things going. We also listed several departments we think are vitally important in order to get things done. We have organized and done a great deal of work to get everything blown up, cleaned, accounted for and placed in various parts of the hospital. We can simply close the doors and ask one or two people to handle things but it won't be very organized and it will not be done very well. However, we do understand the drain on the dollars.

Finally we have 8 senior staff who are planning on being here as long as you need us. If you need us to op coming in please me know and I will coordinate the official terminations.

We have a meeting at 9 AM tomorrow (I know that is early for you guys for us to discuss) or we can go over at the 12:30 call. Or simply let me know what positions you want us to have and I will make sure the rest are directed not to come in.
